To whom it may concern,

I am writing this letter to let you know how impressed I have been with the performance and professionalism of Tamarack Grove Engineers and specifically Brian Sielaff. On multiple occasions Brian has performed structural seismic condition assessments on existing buildings in an effort to evaluate and define structural deficiencies for use by myself and the clients that I represent while I was employed at Thornton Oliver Keller as a Project Manager. The Building Evaluation Reports that Brian provided were clearly written, well formatted and very useful in determining the value of the evaluated buildings during due diligence.

The relationship that I developed with Brian, and Tamarack Grove Engineering, has followed over to ESI Express. I have been able to utilize Brian's abilities on design build projects over the past two years and his work has been well received by me and my clients.

I would recommend Tamarack Grove Engineering on any structural engineering design or evaluation project and personally look forward to working with him again in the future.

Sincerely,

Mike Dahlberg
ESI Express
General Manager
